1. Introduction

1.1. Indian Film Industry

Indian Cinema emerged as a powerful medium of socio-cultural transformation in the country during the 20th century. Being an entertainment industry, it has not only left a memorable mark on people’s social behaviour but also assumed the form of an important economic activity. Cinema has also played a major role in promoting tourism by familiarising the viewers with a large number of scenic and culturally rich locations. Without any doubt, Indian films have been of great help in projecting the image of contemporary India not only within but also outside India. The global impact of cinema is increasing day by day and therefore the Government of India has decided to accord the status of an industry to films. The film industry is an important vehicle for social, cultural and economic development. Thus, a well-nurtured film industry can be a major source of wealth creation, employment generation and effective tool and platform for preservation of culture and expression of the people of Jammu & Kashmir. The industry can promote Jammu & Kashmir’s potential as an investment and tourist destination even as it acts as a powerful tool for the dissemination of its culture.

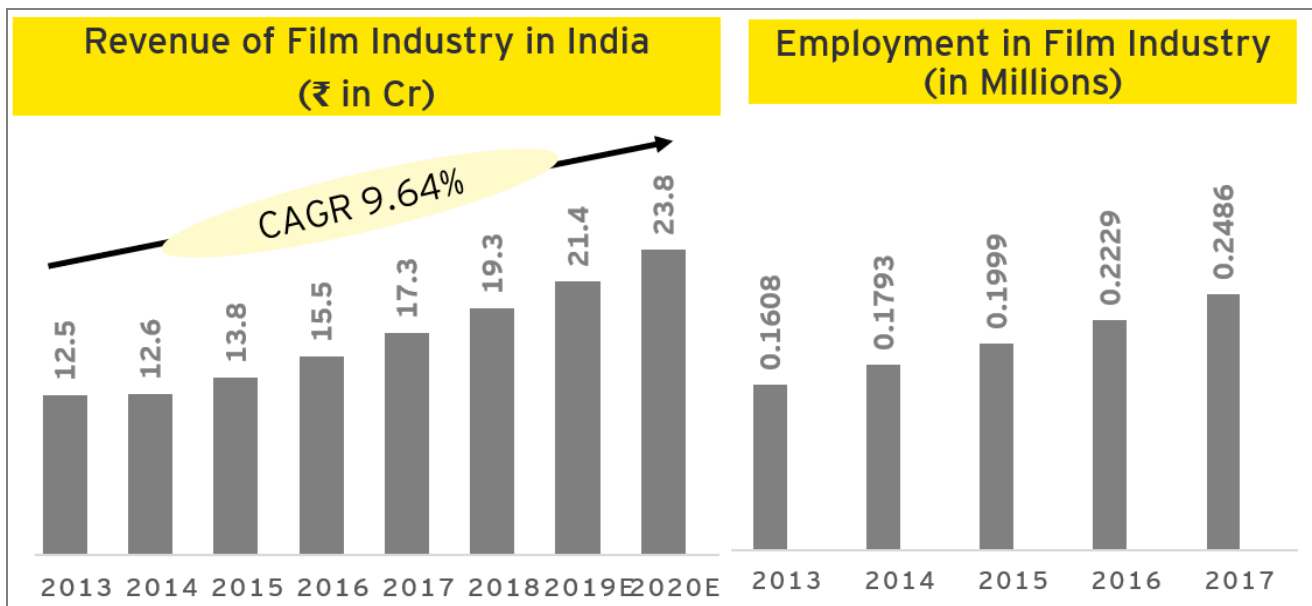

With a view to formulate a holistic Film Policy, the Department of Information & PR, J&K held widespread consultations with the stakeholders of the film industry. Hon’ble LG visited Mumbai to meet the film fraternity and seek their suggestions for reviving the film ecosystem in the UT of J&K. Based on the suggestions received from the film fraternity as well as after studying the film policies of several State in India, a holistic Film Policy - J&K Film Policy 2021, has been formulated to attract greater investment in the film sector and

will make Jammu and Kashmir a choicest destination for film shooting of both national and international film makers

1.2. Indian Film Industry Current Scenario

India is the world’s largest film producer, producing over 1,986 films per year with Tamil (304), Telugu (294) and Hindi (364) being the three largest film producing languages. Two films - Bill Murray's *The Razor's Edge* in 1983, and *The Climb* (UK Film) in 1986 were also shot in varied locations of Kashmir Valley.
- At the beginning of the 21st century, Jammu & Kashmir was able to catch the eyes of numerous film and documentary makers. Few documentaries by Indian and international documentary makers were also shot in Jammu & Kashmir. Amongst the popular ones are *Riding Solo to the Top of the World* (2006), *Living in Emergency* (2008), and *The Highest Pass* (2011).
